The Spectra Commitment

Spectra is committed to bringing you the best products for whole body therapy. Red light therapy is growing in popularity as one of the best therapies available. Photobiomodulation is growing in popularity as continued research confirms its efficacy and consistency in improving blood flow to the body and enhancing physical performance.

The Standard in Red Light Therapy

All devices are tested with lab grade equipment to ensure quality and safety. Light output is measured, and careful observation of these devices ensures that the LED lights are functioning at their optimal level before you use your device for the first time.

A Gentle But Powerful Therapy

Red light therapy beds from Spectra ensure that you're not only receiving the gentle wavelengths necessary to aid in healing the body, but it is also strong and powerful for endurance in physical performance and overall longevity. The Spectra design is based on decades of proven research which makes our Red Light beds among the most advanced options for professional use.

- **Education Center** for continued learning

S10 Pro Key **Features**

Spectra S10 Pro

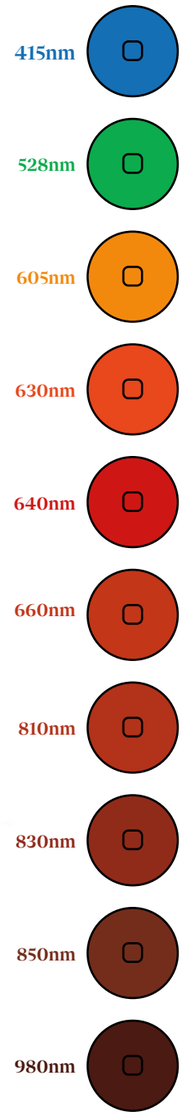
Designed for Commercial & Home Use.

Spas, Wellness Centers, Salons, Cryotherapy Centers & Home Use.

Our most powerful device delivers the same results in less time!

RED LIGHT THERAPY BED

CERTIFIED IRRADIANCE: 34 mW/cm² @ 0 inches
WAVELENGTH (NM): 415-528-605-630-640-660-810-830-850-980
SESSION TIME: 10 -16 Minutes
WARRANTY: 6-Years (Top to Bottom)
POWER SUPPLY: 208V—240V 30A Single Phase
LIGHT SOURCE: 3W LEDs
OUTSIDE DIMENSIONS (L, W, H): Pro 84"L X 44"H X 40"W
INSIDE DIMENSIONS (L, W, H): Pro 80"L X 36"W X 16"H
DOOR SIZE FOR INSTALATION: 28" Minumum Door Clearance
WEIGHT LIMIT: 500 lbs
NET WEIGHT: 400 lbs



Safety

- Integrated **Safety Grounding**
- Integrated **Circuit Protection**
- **UL & CE** Power Supplies, Connectors & Wire
- **Lock-In connectors** for safe operation

Quality

- **Premium Build Quality** using **Aluminum components** for lighter beds
- **Best in industry 6-Year Warranty** (Top To Bottom) **Lifetime LED** Warranty
- Parts manufactured in **ISO 9001** facilities
- **Surge Protection**
- Every bed is **Tested** and **Certified** prior to shipping
- Designed, engineered, manufactured and certified in the **USA**

Bed Features

- **Adjustable speed** quiet user fan
- **Frosted acrylic** for optimal light blend
- Internal **Reflective Coating** for maximum irradiance
- **150,000** life, low vibration & low noise DC cooling fans
- **Integrated Wheels** for easy mobility and cleaning
- Easy Assembly—Less than 20 minutes to fully install a bed
- **Clear Span** acrylic offers **100% Unblocked Light** between the LEDs and user
- **FDA Class II Cleared** Product

Controller

- **Easy to use** controller
- **6 Clinically Formulated Protocols** based on most common uses of light therapy
- **3 Custom Modes** for specific clinical use

EMF Mitigation

- **EMF Free** Red Light Bed
- **Independent** Control Tower to keep EMFs separate from the bed
- **Power Harmonizer** with **EMF protection**, **EMP-shielding** and **Line Harmonization**

LEDs

- Broad Spectrum **10 Wavelength** System based on the most researched, most effective & clinically proven. (blue, green, amber, red and near infrareds)
- **Powerful Light Variety** Utilizes various wavelengths of LEDs for maximum health benefits, providing a powerful and versatile therapy experience.
- **100,000+** hour LED life
- **Derated LEDs** for longer life and cooler system operation
- **True Irradiance** verified with lab certified spectroradiometer on each bed made
- Third party light **Lab Tested and Certified** irradiance
- **Formulated Light Blend** for optimal distribution
- **Equal Irradiance** on the bottom and top of your body by using multi angle LED lenses
